States of Crisis and Post-Capitalist Scenarios Heiko Feldner, Fabio Vighi

States of Crisis and Post-Capitalist Scenarios engages with the crisis of our capitalist world, with a view to explaining its origins, unravelling its symptoms, and demystifying the anodyne corrective solutions so far proposed. At the same time, it endorses the necessity for utopian interventions aimed at drastically rethinking our social order. Organised around the themes of economy and politics, critical theory, and culture in order to offer an impressive range of thematic perspectives and critical angles, the book delves into the most pressing of today's quandaries by combining stringent critical analysis with creative foresight. A rigorous examination of the current crisis of late-capitalist society, States of Crisis and Post-Capitalist Scenarios develops paradigms that promise to rekindle the desire to move beyond capitalism towards a different social order. As such, it will appeal to scholars and students across the humanities and social sciences with particular interests in social and political theory, contemporary philosophy and the crises faced by the current capitalist order.
