End Times and 2019 reviews the evidence suggesting that the end of the world as we know it will occur in December 2019. Fact after fact is presented in logical order, progressing through astronomical clues given by the Maya, Egyptian pyramids, world mythology, and especially the Bible – leading readers to a timeline of events for our civilization’s final years. The author’s claim – while bold and controversial – is backed up with hundreds of documented citations and additional hundreds of Bible quotes, all of which point to the same events ending in 2019. (His next book, *Antichrist 2016-2019*, focuses on the many clues pointing to the middle of the final seven years.)
