Volume 15, Tome II: Kierkegaard's Concepts: Classicism to Enthusiasm (Kierkegaard Research: Sources, Reception and Resources) Steven M. Emmanuel, William McDonald

Kierkegaard's Concepts is a comprehensive, multi-volume survey of the key concepts and categories that inform Kierkegaard's writings. Each article is a substantial, original piece of scholarship, which discusses the etymology and lexical meaning of the relevant Danish term, traces the development of the concept over the course of the authorship, and explains how it functions in the wider context of Kierkegaard's thought. Concepts have been selected on the basis of their importance for Kierkegaard's contributions to philosophy, theology, the social sciences, literature and aesthetics, thereby making this volume an ideal reference work for students and scholars in a wide range of disciplines.
