The novel is filled with adventure, romance and mystery; extending from the ocean depth ancient ruins of the Mediterranean, to the buried treasures in the jungles of South America, to the space station battles of the future, and to the hidden libraries of secret organizations. The story evolves as the character starts to discover certain secrets, hidden in the Holy Scriptures and other ancient texts. The Bible code puzzles hidden in the materials of the ancient prophets slowly begin to come together, as the reader is led through a story of intrigue and mystery. As the character proceeds to decipher each Bible Code, he begins to discover how those codes relate to what is about to unfold in the very near future, and starts to see the connection of events happening in the present day world to those events talked about by the prophets, millenniums ago. The book leads the reader through a maze of discoveries and apocalypse on what is about to happen in the very last days of human history in which we are living in, right now. It ties together the mysteries of the Bible prophecies; Nephilim giants' fossil discoveries; UFO sightings; ancient monuments such as Stonehenge and their meaning; the technological advances of Atlantis and its destruction; the hidden agendas of the secret organizations of the Illuminati and Freemasons; the connections between the three World Wars; the rise of the Anti-Christ and the unification of the new one-world government seven-headed beast; the purpose of the soon coming "666" microchip implants; the role that the two hundred million troop army of China will play in the End-Times; the drying up of the Euphrates; the correlation of the "String Theory" of quantum mechanics to the eleven dimensions of dark matter and dark energy in which the aliens use to travel between the dimensions; the breaking of the water canopy surrounding the earth bringing about Noah's flood—changing the atmospheric pressure causing dinosaur extinction; the coalition of Russian and Muslim nations that will attack Israel with nuclear weapons; the Wormwood asteroid; reversal of the magnetic poles and great shaking of the earth; and of course, that final battle of Armageddon in the valley of Megiddo. The characters and story are completely fictional, but the prophecies are true to scripture. This book is written for both adult and young readers—Christian and non-believer—for study of scriptural prophetic eschatology. It is designed to be a fun way of equipping the serious student with Bible prophecy teachings. Though an academic book, designed to teach the student concerning the ancient texts, it is written in the form of a fictional story of a young character who goes through an adventure involving supernatural power and hair-raising events, both in this life and the life after. It gives hope to the non-believers who are wondering what awaits them in the life-after-death. The content is not only written for the conservative half of the population, but also for the other half who may simply love novels of mystique and adventure: wild car chases,

espionage, space battles, decoding archaeological discoveries and love stories involving personal sacrifice. At the end of the story lies the uncovering of the great secret of the mystery.
