Brief Course in Business Statistics

William Mendenhall, Robert Beaver

Brief Course in Business Statistics William Mendenhall, Robert Beaver

This text covers basic descriptive and inferential statistics, linear and multiple regression, analysis of variance, chi-square, and quality control. All problems in the text are based on real data from published sources. Each chapter begins with a case description of a business problem and concludes with questions asking the student to analyze the case problem using the tools mastered in the chapter. Numerous computer outputs and graphics appear from Minitab and SAS.
