This book constitutes the refereed proceedings of the 6th International Symposium on Intelligence Computation and Applications, ISICA 2012, held in Wuhan, China, in October 2012. The 72 revised full papers presented were carefully reviewed and selected from numerous submissions. The papers are organized in topical sections on artificial life, adaptive behavior, agents, and ant colony optimization; combinatorial and numerical optimization; communications and computer networks; data mining; evolutionary multi-objective and dynamic optimization; intelligent computation, intelligent learning systems; neural networks; real-world applications.

**From reader reviews:**

**Della Bailey:**

Do you have favorite book? In case you have, what is your favorite's book? Reserve is very important thing for us to be aware of everything in the world. Each publication has different aim as well as goal; it means that e-book has different type. Some people really feel enjoy to spend their the perfect time to read a book. These are reading whatever they consider because their hobby is definitely reading a book. How about the person who don't like reading through a book? Sometime, particular person feel need book if they found difficult problem or exercise. Well, probably you'll have this Computational Intelligence and Intelligent Systems: 6th International Symposium, ISICA 2012, Wuhan, China, October 27-28, 2012. Proceedings (Communications in Computer and Information Science).

**Colleen Key:**

In this 21st one hundred year, people become competitive in most way. By being competitive today, people have do something to make these survives, being in the middle of the particular crowded place and notice through surrounding. One thing that at times many people have underestimated the idea for a while is reading. Yes, by reading a publication your ability to survive enhance then having chance to stay than other is high. In your case who want to start reading the book, we give you this Computational Intelligence and Intelligent Systems: 6th International Symposium, ISICA 2012, Wuhan, China, October 27-28, 2012. Proceedings (Communications in Computer and Information Science) book as beginner and daily reading e-book. Why, because this book is greater than just a book.

**Melissa Alfonso:**

The actual book Computational Intelligence and Intelligent Systems: 6th International Symposium, ISICA 2012, Wuhan, China, October 27-28, 2012. Proceedings (Communications in Computer and Information Science) has a lot of knowledge on it. So when you make sure to read this book you can get a lot of gain. The book was written by the very famous author. Mcdougal makes some research before write this book. This particular book very easy to read you can find the point easily after reading this book.

**Jon Fuselier:**

What is your hobby? Have you heard that will question when you got scholars? We believe that that issue was given by teacher for their students. Many kinds of hobby, Everyone has different hobby. Therefore you know that little person including reading or as reading become their hobby. You need to understand that reading is very important along with book as to be the factor. Book is important thing to add you knowledge, except your current teacher or lecturer. You see good news or update about something by book. Amount types of books that can you go onto be your object. One of them is this Computational Intelligence and Intelligent Systems: 6th International Symposium, ISICA 2012, Wuhan, China, October 27-28, 2012.
