'Armed mainly with tremendous scholarly energy, the University of Washington has developed into the premier center of Asian legal studies in North America. This volume is a tribute to the breadth and depth of activity at the Asian Law Center over its first five decades, and a treasure trove of substantive insights into comparative law in Asia. As Asian law continues to attract more attention around the world, we must all be grateful for the contributions of the innovators who built the field.'

- Tom Ginsburg, University of Chicago Law School, US

'Professors Haley and Takenaka have put together a wonderfully eclectic collection of essays to commemorate the founding of the Asian Law Center at the University of Washington School of Law in 1964. Written by leaders in their respective fields, the essays, which explore legal developments, innovations and transplants in Japan and its neighbours, will appeal to scholars and students of Japanese law, as well as comparative lawyers with an interest in Asian law.'

- Jean Ho, National University of Singapore

'For fifty years now, the University of Washington's Asian Law Center has stood at the center of American scholarship on Japanese law. Its scholars have consistently produced the very best work in the field, and men and women associated with it have increasingly turned their attention to other legal systems in Asia as well. In this broad-ranging volume, the contributors explore the intriguing connections among the many legal systems at stake. They have produced a tantalizing blend of analytical depth and geographical breadth.'

- J. Mark Ramseyer, Harvard Law School, US

Legal Innovations in Asia explores how law in Asia has developed over time as a result of judicial interpretation and innovations drawn from the legal systems of foreign countries.

Expert scholars from around the world offer a history of law in the region while also providing a wider context for present-day Asian law. The contributors share insightful perspectives on comparative law, the role of courts, legal transplants, intellectual property, Islamic law and other issues as they relate to the practice and study of law in Japan, China, Taiwan, Korea and Southeast Asia.

Students and scholars of Asian law will find this a timely and fascinating read, as will legal practitioners and colleagues of the Asian Law Center.
