Decision Making in Manufacturing Environment Using Graph Theory and Fuzzy Multiple Attribute Decision Making Methods: Volume 2 (Springer Series in Advanced Manufacturing) R. Venkata Rao

Decision Making in Manufacturing Environment Using Graph Theory and Fuzzy Multiple Attribute Decision Making Methods presents the concepts and details of applications of MADM methods. A range of methods are covered including Analytic Hierarchy Process (AHP), Technique for Order Preference by Similarity to Ideal Solution (TOPSIS), VIšekriterijumsko KOmpromisno Rangiranje (VIKOR), Data Envelopment Analysis (DEA), Preference Ranking METHod for Enrichment Evaluations (PROMETHEE), ELimination Et Choix Traduisant la Realité (ELECTRE), COMplex PROportional ASsessment (COPRAS), Grey Relational Analysis (GRA), UTility Additive (UTA), and Ordered Weighted Averaging (OWA).

The existing MADM methods are improved upon and three novel multiple attribute decision making methods for solving the decision making problems of the manufacturing environment are proposed. The concept of integrated weights is introduced in the proposed subjective and objective integrated weights (SOIW) method and the weighted Euclidean distance based approach (WEDBA) to consider both the decision maker's subjective preferences as well as the distribution of the attributes data of the decision matrix. These methods, which use fuzzy logic to convert the qualitative attributes into the quantitative attributes, are supported by various real-world application examples. Also, computer codes for AHP, TOPSIS, DEA, PROMETHEE, ELECTRE, COPRAS, and SOIW methods are included.

This comprehensive coverage makes *Decision Making in Manufacturing Environment Using Graph Theory and Fuzzy Multiple Attribute Decision Making Methods* a key reference for the designers, manufacturing engineers, practitioners, managers, institutes involved in both design and manufacturing related projects. It is also an ideal study resource for applied research workers, academicians, and students in mechanical and industrial engineering.

From reader reviews:

Donna Macdonald:

In other case, little folks like to read book Decision Making in Manufacturing Environment Using Graph Theory and Fuzzy Multiple Attribute Decision Making Methods: Volume 2 (Springer Series in Advanced Manufacturing). You can choose the best book if you appreciate reading a book. Providing we know about how is important a book Decision Making in Manufacturing Environment Using Graph Theory and Fuzzy Multiple Attribute Decision Making Methods: Volume 2 (Springer Series in Advanced Manufacturing). You can add knowledge and of course you can around the world by just a book. Absolutely right, mainly because from book you can recognize everything! From your country until eventually foreign or abroad you will find yourself known. About simple issue until wonderful thing it is possible to know that. In this era, we can easily open a book or perhaps searching by internet product. It is called e-book. You may use it when you feel uninterested to go to the library. Let's learn.

Vickie Reed:

Spent a free the perfect time to be fun activity to accomplish! A lot of people spent their free time with their family, or all their friends. Usually they performing activity like watching television, gonna beach, or picnic from the park. They actually doing same task every week. Do you feel it? Would you like to something different to fill your own personal free time/ holiday? Could possibly be reading a book is usually option to fill your no cost time/ holiday. The first thing that you ask may be what kinds of guide that you should read. If you want to try look for book, may be the guide untitled Decision Making in Manufacturing Environment Using Graph Theory and Fuzzy Multiple Attribute Decision Making Methods: Volume 2 (Springer Series in Advanced Manufacturing) can be fine book to read. May be it is usually best activity to you.

Richard Haley:

Beside this kind of Decision Making in Manufacturing Environment Using Graph Theory and Fuzzy Multiple Attribute Decision Making Methods: Volume 2 (Springer Series in Advanced Manufacturing) in your phone, it may give you a way to get closer to the new knowledge or info. The information and the knowledge you might got here is fresh from oven so don't become worry if you feel like an previous people live in narrow village. It is good thing to have Decision Making in Manufacturing Environment Using Graph Theory and Fuzzy Multiple Attribute Decision Making Methods: Volume 2 (Springer Series in Advanced Manufacturing) because this book offers for you readable information. Do you oftentimes have book but you would not get what it's all about. Oh come on, that won't happen if you have this in your hand. The Enjoyable option here cannot be questionable, just like treasuring beautiful island. So do you still want to miss this? Find this book in addition to read it from right now!

Sherri Ellison:

Many people said that they feel uninterested when they reading a publication. They are directly felt that when they get a half parts of the book. You can choose often the book Decision Making in Manufacturing Environment Using Graph Theory and Fuzzy Multiple Attribute Decision Making Methods: Volume 2 (Springer Series in Advanced Manufacturing) to make your own reading is interesting. Your current skill of reading talent is developing when you like reading. Try to choose simple book to make you enjoy to read it and mingle the sensation about book and looking at especially. It is to be first opinion for you to like to available a book and read it. Beside that the publication Decision Making in Manufacturing Environment Using Graph Theory and Fuzzy Multiple Attribute Decision Making Methods: Volume 2 (Springer Series in Advanced Manufacturing) can to be a newly purchased friend when you're truly feel alone and confuse in doing what must you're doing of that time.
