Doing Doctoral Research into Higher Education... and getting it right. Prof Paul R Trowler

This book brings together and updates my previous work, published on Amazon, for doctoral students doing research into higher education. Those small books were designed to offer succinct advice of immediate help to such students. They proved to be very popular. This book, then, covers that same ground in six sections, each of which addresses a critical area for doctoral students. Common mistakes are identified, and advice is given in critical areas so that wherever you are in the doctoral journey you don't go down any blind alleys or get involved in fruitless diversions. I hope to help you "get it right from the start". The six areas are: 1. Writing Doctoral Proposals 2. Making Theory Work 3. Thesis Structure, Content and Completion 4. Ten Key Components in Doctoral Research 5. Doing Insider Research in Universities 6. Frequently Asked Questions about Doctoral Research into Higher Education.
