## **The Stoic Idea of the City** Malcolm Schofield

*The Stoic Idea of the City* offers the first systematic analysis of the Stoic school, concentrating on Zeno's *Republic*. Renowned classical scholar Malcolm Schofield brings together scattered and underused textual evidence, examining the Stoic ideals that initiated the natural law tradition of Western political thought. A new foreword by Martha Nussbaum and a new epilogue written by the author further secure this text as the standard work on the Stoics.

"The account emerges from a jigsaw-puzzle of items from a wide range of authorities, painstakingly pieced together and then annotated in a series of appendixes, the whole executed with fine scholarship, clarity, and good humor."—*Times Literary Supplement*
