Analyzes and surveys how 182 nongovernmental organizations affect the development of federal U.S. educational policy. The alphabetically arranged profiles describe the purposes, origins and development, structure and budget, policy concerns and tactics, political activities, and publications of key citizen interest groups in the field of education. Appendices give information about the survey questionnaire, important governmental bodies, and legislative hearings and list the organizations under study; a short bibliography points to important recent books and articles on educational groups in general. The index makes the guide easily accessible to students, teachers, policymakers, and professionals in education, public policy, and government.
