These proceedings contain the papers presented at the 2005 IFIP International Conference on Network and Parallel Computing (NPC 2005), held in Beijing, China, between November 30 and December 3, 2005. The goal of the conference was to establish an international forum for engineers and scientists to present their ideas and experiences in network and parallel computing. A total of 320 submissions were received in response to our Call for Papers. These papers were from the following countries or regions: Australia, Canada, China, France, Germany, Hong Kong, India, Iran, Italy, Japan, Korea, Luxemburg, Nepal, Netherlands, Taiwan, United Arab Emirates, and United States. Each submission was sent to at least three reviewers. Each paper was judged according to its originality, innovation, readability, and relevance to the expected audience. Based on the reviews received, a total of 68 papers were retained for inclusion in the proceedings. Among the 68 papers, 48 were accepted as full papers for presentation at the conference. We also accepted 20 papers as short papers for a possible brief presentation at the conference, followed by discussion during a poster session. Thus, only 21% of the total submissions could be included in the final program.

**From reader reviews:**

**Steven Zakrzewski:**

In this 21st one hundred year, people become competitive in each and every way. By being competitive now, people have to do something to make these individuals survive, being in the middle of the particular crowded place and notice simply by surrounding. One thing that occasionally many people have underestimated it for a while is reading. Yes, by reading a publication your ability to survive rises then having a chance to stand than other is high. For yourself who want to start reading some sort of book, we give you this particular Network and Parallel Computing: IFIP International Conference, NPC 2005, Beijing, China, November 30 - December 3, 2005, Proceedings (Lecture Notes in ... Vision, Pattern Recognition, and Graphics) book as beginning and daily reading reserve. Why, because this book is usually more than just a book.

**Philip Raber:**

Spent a free time to be fun activity to complete! A lot of people spent their spare time with their family, or their very own friends. Usually they accomplish activity like watching television, about to beach, or picnic in the park. They actually do same task every week. Do you feel it? Do you need something different to fill your own personal free time/ holiday? Could possibly be reading a book can be an option to fill your free time/ holiday. The first thing that you'll ask may be what kinds of e-book that you should read. If you want to consider look for book, may be the guide entitled Network and Parallel Computing: IFIP International Conference, NPC 2005, Beijing, China, November 30 - December 3, 2005, Proceedings (Lecture Notes in ... Vision, Pattern Recognition, and Graphics) can be fine book to read. May be it can be best activity to you.

**Blake Westerman:**

Network and Parallel Computing: IFIP International Conference, NPC 2005, Beijing, China, November 30 - December 3, 2005, Proceedings (Lecture Notes in ... Vision, Pattern Recognition, and Graphics) can be one of your starter books that are good idea. Most of us recommend that straight away because this book has good vocabulary that may increase your knowledge in language, easy to understand, bit entertaining but nonetheless delivering the information. The writer giving his/her effort to put every word into delight arrangement in writing Network and Parallel Computing: IFIP International Conference, NPC 2005, Beijing, China, November 30 - December 3, 2005, Proceedings (Lecture Notes in ... Vision, Pattern Recognition, and Graphics) but doesn't forget the main stage, giving the reader the hottest and also based confirmed resource details that maybe you can be one of it. This great information can certainly draw you into new stage of crucial thinking.

**John Barstow:**

Many people spending their time frame by playing outside together with friends, fun activity together with

family or just watching TV all day long. You can have new activity to spend your whole day by reading through a book. Ugh, ya think reading a book can actually hard because you have to use the book everywhere? It ok you can have the e-book, bringing everywhere you want in your Cell phone. Like Network and Parallel Computing: IFIP International Conference, NPC 2005, Beijing, China, November 30 - December 3, 2005, Proceedings (Lecture Notes in ... Vision, Pattern Recognition, and Graphics) which is having the e-book version. So , try out this book? Let's observe.
