# CHIPS 2020 VOL. 2: New Vistas in Nanoelectronics (The Frontiers Collection)

## CHIPS 2020 VOL. 2: New Vistas in Nanoelectronics (The Frontiers Collection)

The release of this second volume of CHIPS 2020 coincides with the 50th anniversary of Moore's Law, a critical year marked by the end of the nanometer roadmap and by a significantly reduced annual rise in chip performance. At the same time, we are witnessing a data explosion in the Internet, which is consuming 40% more electrical power every year, leading to fears of a major blackout of the Internet by 2020.

The messages of the first CHIPS 2020, published in 2012, concerned the realization of quantum steps for improving the energy efficiency of all chip functions. With this second volume, we review these messages and amplify upon the most promising directions: ultra-low-voltage electronics, nanoscale monolithic 3D integration, relevant-data, brain- and human-vision-inspired processing, and energy harvesting for chip autonomy. The team of authors, enlarged by more world leaders in low-power, monolithic 3D, video, and Silicon brains, presents new vistas in nanoelectronics, promising Moore-like exponential growth sustainable through to the 2030s.

### **From reader reviews:**

#### **Matthew Segal:**

Book is to be different for each and every grade. Book for children until eventually adult are different content. As we know that book is very important usually. The book CHIPS 2020 VOL. 2: New Vistas in Nanoelectronics (The Frontiers Collection) seemed to be making you to know about other expertise and of course you can take more information. It is quite advantages for you. The book CHIPS 2020 VOL. 2: New Vistas in Nanoelectronics (The Frontiers Collection) is not only giving you a lot more new information but also for being your friend when you experience bored. You can spend your current spend time to read your publication. Try to make relationship using the book CHIPS 2020 VOL. 2: New Vistas in Nanoelectronics (The Frontiers Collection). You never feel lose out for everything should you read some books.

#### **Annie Hernandez:**

Hey guys, do you would like to finds a new book you just read? May be the book with the headline CHIPS 2020 VOL. 2: New Vistas in Nanoelectronics (The Frontiers Collection) suitable to you? The book was written by popular writer in this era. The particular book untitled CHIPS 2020 VOL. 2: New Vistas in Nanoelectronics (The Frontiers Collection) is the main of several books that everyone read now. That book was inspired many men and women in the world. When you read this e-book you will enter the new dimensions that you ever know just before. The author explained their concept in the simple way, and so all of people can easily to recognise the core of this reserve. This book will give you a lot of information about this world now. To help you see the represented of the world within this book.

#### **Jeffrey Gorski:**

The book CHIPS 2020 VOL. 2: New Vistas in Nanoelectronics (The Frontiers Collection) will bring that you the new experience of reading any book. The author style to clarify the idea is very unique. When you try to find new book to learn, this book very appropriate to you. The book CHIPS 2020 VOL. 2: New Vistas in Nanoelectronics (The Frontiers Collection) is much recommended to you you just read. You can also get the e-book in the official web site, so you can quicker to read the book.

#### **Sylvia Silva:**

The book untitled CHIPS 2020 VOL. 2: New Vistas in Nanoelectronics (The Frontiers Collection) is the book that recommended to you to see. You can see the quality of the e-book content that will be shown to you actually. The language that publisher use to explained their ideas are easily to understand. The writer was did a lot of research when write the book, therefore the information that they share to you personally is absolutely accurate. You also could possibly get the e-book of CHIPS 2020 VOL. 2: New Vistas in Nanoelectronics (The Frontiers Collection) from the publisher to make you considerably more enjoy free time.
