This book attempts to answer those seemingly ordinary questions of life, with deep factual and practical answers. How do I get to my core being? Who am I? What do I do with my religion, culture, environment, family, gender, and childhood, and how should I interact with these aspects of my identity? In this book, there is a case example of an individual who learned about her culture, religion, and family background to ease her self-growth process. She used her immigration experience as a blessing and considered herself privileged to have experienced living in two different countries in her lifetime. She came to learn that this experience had expanded her mind and thought in ways that would not have been possible if she had not immigrated. She also learned ways to learn and acknowledge the aspects of her life that she had escaped from and found the experience fulfilling and uplifting.
