Global Warming - Big Book (Climate Change) Erika Gombatz

What is causing Global Warming? What are the effects? What can we do to stop or reduce Global Warming? We take a critical look from a scientific perspective that will help students separate fact from fiction in popular accounts in order to make informed decisions about products and lifestyle choices that affect the Earth system. We also look at rising sea levels and altered patterns of weather and agriculture which are cited as direct consequences of Global Warming. Finally we look at creative ways to reduce human consumption and output, all in an effort to help clean up our planet. Our ready-to-use resource is written using simplified language and vocabulary which are presented in a way that is easier for students to understand. Comprised of reading passages, student activities, color mini posters, Crossword, Word Search and Comprehension Quiz.
