Cartons, Crates and Corrugated Board: Handbook of Paper and Wood Packaging Technology, Second Edition

Diana Twede, Susan E. M. Selke, David Shires

Cartons, Crates and Corrugated Board: Handbook of Paper and Wood Packaging Technology, Second Edition Diana Twede, Susan E. M. Selke, David Shires

New expanded second edition with key technical, regulatory and marketing developments from the past 10 years. Covers the materials, processes, and design of virtually all paper and fiberboard packaging for end-products, displays, storage and distribution. New information on European and global standards, selection criteria for paperboard, as well as emerging sustainability initiatives. Explains recent tests, measurements and costs with ready-to-use calculations

Ten years ago, the first edition of Cartons, Crates and Corrugated Board quickly became the standard reference book for wood- and paper-based packaging. Endorsed by TAPPI and other professional societies and used as a textbook worldwide, the book has now been extensively revised and updated by a team formed by the original authors and two additional authors. While preserving the critical performance and design data of the previous edition, this second expanded edition offers new information on the technologies, tests and regulations impacting the paper and corrugated industries worldwide, with a special focus on Europe and Japan.

New information has been added on tests and novel designs for folded cartons, as well as expanded discussions of paperboard selection for specific applications, emerging barrier packaging, food contact and migration, and the dynamics and opportunities of corrugated in distribution systems. Recent developments on recycling and sustainability are also highlighted.
