Six Rotten Feet Ricardo Montes de Oca

In the village many people are dying due to hunger and cold in winter... starving or killed by their neighbors. During the summer the villagers move to the southern forests to provide enough food for the winter, but one family has to stay and guard the village. Nobody wants to do that, not even the sick people as it's a condemnation for the time when the snow comes back and there's barely any food in the pantry. However there is a trail of darkness leading to the north to a large forest full of preys. In the summer of the year 1829 the narrator's family is obliged to guard the village and they try their luck crossing the trail to the north.
