Laptops and Literacy: Learning in the Wireless Classroom Mark Warschauer

The number of laptop computers in schools is growing at a rapid rate. This timely book analyzes the types of learning that take place in one-to-one wireless classrooms where all students use laptop computers. With a particular focus on students' literacy practices, the text covers reading and writing, information use, and multimedia development. Featuring critical analysis and practical examples, this book is essential reading for everyone concerned with making effective new use of technology to meet the educational needs of culturally and linguistically diverse students.
