## Reviews:

The plot is dynamic and will surprise any reader with it's twists and turns. I won't ruin anything about the details of the story and I would recommend avoiding spoilers. Overall this is the kind of book you wish didn't end. I'd recommend reading this story to people who want an original, character driven, Akinlana Osei is recruited by MIT as a visiting professor after winning the global New Zealand Hi Tech award.CIA gets involved in his life when his family is kidnapped .

An amazing short read full of action. The foundation is laid for future books involving fighting high-tech terrorism within the CIA. Gill isn't really given a choice to join the Agency, it's more like a silent demand which he decides to accept. Great sharing of emotions and gut feelings. Highly recommend.
